Athena

Dimensions	4x4 m	5x5 m	Hexagon			
Side height	2,87 m					
Surface	16 m ²	25 m ²	65 m ²			

With beautiful arched lines, the Athena is a wonderful eye-catcher at any event. A decorative tent that can be connected to other tents and therefore is ideal for private parties, garden parties, receptions, or elegant tent villages.

In addition you can finish the hall as you choose amongst others with **gothic windows**, **guttering**, **flooring**.

Ground plan

Construction

A self-supporting aluminium structure with a floating centre pole leaning on cables resting on galvanised steel base-plates. The standard anchoring is realised with stakes. All parts are connected with pins for quick and easy installation. The stability is ensured using wind bracing.

Roof fabric

The roof fabric is made from PVC coated polyester fabric (white translucent, white non-translucent or colour). The roof fabric is stretched using ratchets. Flame retardant according to the French standard M2, German standard DIN 4102 B1 and British Standard BS 5438. The fabric is UV-stabilised and treated against deterioration due to rot and mildew.

Technical specifications			
Width	4 m	5 m	hexagon
Side height		2,87 m	
Ridge height	4,95 m	5,75 m	6,17 m

Sidewalls

The sidewall fabrics are made from PVC coated polyester fabric (white translucent, white non-translucent or colour). Flame retardant according to the French standard M2, German standard DIN 4102 B1 and British Standard BS 5438. The fabric is UV-stabilised and treated against deterioration due to rot and mildew. One sidewall of 4 m or 5 m is made from two sections, of 2 m or 2.5 m, which are connected with a zip. The sidewall slides into the leg with a keder in the keder tracks. The sidewall is attached to the connection bar at the bottom with straps and at the top the sidewall is slid into the side purlin with keder sections. This prevents the fabric from flapping in strong winds.
